Specials			
Item	No. in Unit	Cost/ Unit	Special Price for Large Quantities
Songbird Bundle	18	\$16	None
Contains three eastern redcedar, three serviceberry, three redbud, five fragrant sumac, and four golden currant seedlings.			
Quail Bundle	75	\$60	None
Contains 25 each American plum, fragrant sumac, and serviceberry.			
Pheasant Bundle	100	\$80	None
Contains 50 sand hill plum, 25 fragrant sumac, and 25 serviceberry.			
Marking Flags	100	\$15	None
100 plastic flags on a 30-inch wire stakes for marking seedling location.			
Rabbit Protective Tubes	25	\$15	None
25 rigid tubes (extruded in a diamond mesh pattern to form a column) 3¼" × 18", the tubes have an approximate 3-year life span, for use in protecting seedlings from rabbit and deer. Includes 25, 2' bamboo stakes. Although used successfully on many plantings, occasionally various wildlife will pull out the stakes or chew on the tubes or stakes.			
Root Protective Slurry	8 ounces	\$10	None
Eight ounces of a water-absorbing polymer for use as a root dip to protect roots from drying. Treats approximately 300 seedlings. Especially recommended for bare-root seedlings evergreens.			
Tree Tubes – 4'	5	\$25	None
Five translucent polyethylene vented tubes that are 48" tall and approximately 3½" wide. They are designed to protect deciduous trees (not evergreens or shrubs) from deer damage and promote faster growth. Includes five oak stakes that are 60" tall and zip ties to anchor the tube. Blue birds can enter the tops of the tubes and become stuck, so it is recommended to cover the tops with cheesecloth or another vented material to restrict top entry.			
Tree Tubes – 5'	5	\$30	None
Five translucent polyethylene vented tubes that are 60" tall and approximately 3½" wide. They are designed to protect deciduous trees (not evergreens or shrubs) from deer damage and promote faster growth. Includes five oak stakes that are 72" tall and zip ties to anchor the tube. Blue birds can enter the tops of the tubes and become stuck, so it is recommended to cover the tops with cheesecloth or another vented material to restrict top entry.			
Weed Barrier Fabric and Pins	25	\$60	None
25 pieces of 4' × 4' polypropylene geotextile fabric guaranteed 5 years against ultraviolet deterioration. Welded seams to resist raveling. Used to conserve soil moisture and greatly reduce labor required in weed control. Includes 125 pins for securing fabric squares to the ground around individual plants.			
Additional Weed Barrier Pins	125	\$25	None
