

Kansas Tree Planting and Timber Stand Improvement Contractors

July 2011

About the List

The Contracting Foresters list includes people with limited to extensive forestry knowledge and experience. Always use a professional, experienced or SAF certified forester to mark trees for thinning or to design tree plantings. KFS foresters (<http://www.kansasforests.org/staff/rural/index.shtml>) and consulting foresters (<http://www.kansasforests.org/rural/CONSULTING%20FORESTERS.pdf>) are available to mark trees and design tree plantings. An asterisk beside a contractor indicates they have had training from the KFS. Please contact the KFS (785-532-3310, atchison@ksu.edu) if you are interested in forestry training.
