

## Forestry Contractors

Forestry Contractors may also include some of the same people listed as Forestry Consultants, however, not all these people have degrees in forestry. The Forestry Contractors list includes a broad range of people who provide tree planting, timber stand improvement and windbreak renovation services. Their experience and knowledge vary and should be affirmed by checking references.

The forestry contractors list below includes people with limited to extensive forestry knowledge and experience. Always use a professional, experienced or SAF certified forester to mark trees for thinning or to design tree plantings. Kansas Forest Service foresters and consulting foresters are available to mark trees and design tree plantings. An asterisk beside a contractor indicates they have had training from the Kansas Forest Service.

Name/Address	Contact	Area of Coverage	Services Provided
Austin Jones Excavating Austin Jones Wetmore, KS 66550	(785) 851-1084 (785) 866-5000	Northeast KS	Dirt work, tree shearing, and chainsaw work.
