

## Kansas Tree Planting and Timber Stand Improvement Contractors

June 2021

### About the List

The Contracting Foresters list includes people with limited to extensive forestry knowledge and experience. Always use a professional, experienced or SAF certified forester to mark trees for thinning or to design tree plantings. KFS foresters and consulting foresters are available to mark trees and design tree plantings. An asterisk beside a contractor indicates they have had training from the KFS. Please contact the KFS (785-532-3310, [atchison@ksu.edu](mailto:atchison@ksu.edu)) if you are interested in forestry training.

Name	Phone/E-mail	Area of Coverage	Services Provided
